Colorado § 24-34-301 and § 24-34-803 defines a service animal as trained to do work or tasks to assist a disabled person. Persons with service animals, or those training them, are granted full public access. Certification, equipment, or ID are not required. Interfering with, harassing, or injuring a service animal is a class 3 misdemeanor.

Per U.S. federal law, a dog trained to assist with a person's disability can join them without a fee in public places like taxis, stores, hotels, restaurants, hospitals, and schools. No ID, equipment, or 'certification' is required. Only two questions are allowed: Is the dog a service animal required because of a disability? What work or task has it been trained to perform? It may only be denied if the animal is out of control or not housebroken.
